

Albert's House Model

As seen in the book **Albert's Alphabet**.

A challenge: This model earned this rating because it has many pieces, requires some intricate folds and has detailed instructions.

There are 2 instruction pages and 5 pattern pages.

- The model has 3 major parts: 1st floor, 2nd floor, 3rd floor
- All - - - - broken lines are CUT lines.
- All tabs are marked “glue tab” but you may elect to use tape on some pieces.
- Only one piece, on the top level, requires exacto-blade cuts.

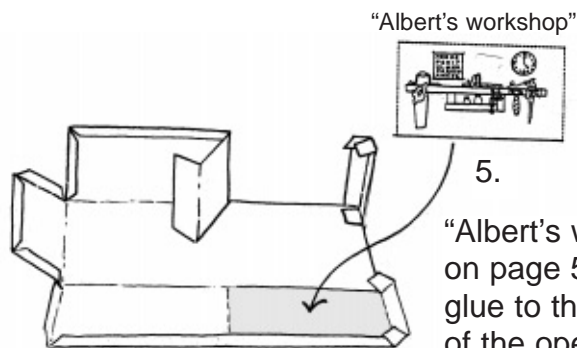

You will need:

- Two pieces of tagboard 2 1/2” x 7 1/8”
- Scissors, glue, tape, colored pencils or crayons.
- Pattern Pieces (on 5 pages)

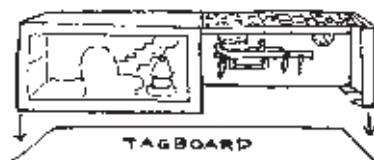

Building your Z-house

1st Floor

1. Begin with page 1 ~ the 1st floor.
2. Color (look at **Albert's Alphabet** for the colors).
3. Cut along all - - - - broken lines.
4. Fold along all “fold” lines.

6.
Glue or tape the 1st floor
to the tagboard base.

“Albert's workshop” is
on page 5, cut and
glue to the back wall
of the open workshop
space on unprinted
side of 1st floor as
shown.
